PROPOSED CASING AND CEMENTING PROGRAM

SIZE OF HOLE	SIZE OF CASING	WEIGHT PER FOOT	SETTING DEPTH	QUANTITY OF CEMENT
10 5/8"	8 5/8"	24.00#	250'	75 Sax Cement.
7 7/8"	5 5/8"	15.50	TO	To Above uppermost hydrocarbon shows.

Propose to drill a well at the above location to test production at all formations above and into the Dakota Sandstone. Rotary tools with air for circulation is planned. If water is encountered, drilling fluids will be used. Surface casing will be set in cement to a depth of about 250'. Return lines will be provided to the surface. A blowout preventer with hydraulically operated blind and pipe rams will be installed on top of the surface casing. A kelly cock and safety sub to be on the derrick floor at all times to provide added protection against excessive pressures and temperatures. Two inch Fill and Kill lines will be connected below the blind rams. Gas or oil encountered will be flared at the end of the blowie line. A flare will remain lighted at the end of the blowie line at all times. Volume will be roughly checked through a two inch line after the rams have been closed. A float valve will be used in the bottom of the drill collar at all times.

IN ABOVE SPACE DESCRIBE PROPOSED PROGRAM: If proposal is to deepen or plug back, give data on present productive zone and proposed new productive zone. If proposal is to drill or deepen directionally, give pertinent data on subsurface locations and measured and true vertical depths. Give blowout preventer program, if any.

OF THE STATE OF UTAH

DESIGNATION OF AGENT

The undersigned producer, operator, transporter, refiner, gasoline or initial purchaser who is conducting oil and/or gas operations in the State of Utah, does, pursuant to the Rules and Regulations and Rules of Practice and Procedure of the Division of Oil, Gas and Mining of the State of Utah, hereby appoint Michael Cole, whose address is RR# 1 Price, Utah 84501, (his, ~~home~~) designated agent to accept and to be served with notices from said Board, or from other persons authorized under the Oil and Gas Conservation Act of the State of Utah.

The undersigned further agrees to immediately report in writing, all changes of address of the agent, and any termination of the agent's authority, and in the latter case, the designation of a new agent or agents shall be immediately made. This designation of agent, however, shall remain in full force and effect until and unless a new designation agent is filed in accordance with said statute and said regulations.

Effective date of designation June 1, 1982

Insofar as this office is concerned, approval to drill the above referred to gas well is hereby granted in accordance with the Order issued in Cause No. 137-2(B), dated 02-25-82.

Should you determine that it will be necessary to plug and abandon this well, you are hereby requested to immediately notify the following:

CLEON B. FEIGHT
Office: 533-5771
Home: 466-4455

Enclosed please find Form OGC-8-X, which is to be completed whether or not water sands (aquifers) are encountered during drilling. Your cooperation in completing this form will be appreciated.

Further, it is requested that this Division be notified within 24 hours after drilling operations commence and that the drilling contractor and rig number be identified.

The API number assigned to this well is 43-007-30073.

Sincerely,

RONALD J. FIRTH
CHIEF PETROLEUM ENGINEER

Dear Jim:

In reference to the above mentioned wells, considerable time has gone by since approval was obtained from this office.

This office has not received any notification of spudding. If you do not intend to drill these wells, please notify this Division. If spudding or any other activity has taken place, please send necessary forms. If you plan to drill these locations at a later date, please notify as such.

We will be happy to acknowledge receipt of your response to this notice if you will include an extra copy of the transmittal letter with a place for our signature, and a self addressed envelope for the return. Such acknowledgement should avoid unnecessary mailing of a firm second notice from our agency.

Your prompt attention to the above will be greatly appreciated.

Respectfully,

DIVISION OF OIL, GAS AND MINING

4/11/83

Dear Carl:

I am sorry you have had to write again regarding the listed wells; however, It is good to hear from you!

I turned all my records, copies of reports, copies of permits, etc. over to Carmack Drilling Co., 2154 Hi Way 6-50 Grand Junction, CO 81501. (303) 245-2500

There was no drilling, spudding or any activity on any of these wells except Chiritta #~~2~~¹; drilled and was a dry hole. Some kind of a blowup occurred between Carmack and Utah Penn and the whole project was abandoned.

I am receiving letters from the Utah Tax Commission, Assessed property Div. has written regarding Chiritta #1. They name a "Mr Ray M. Lee, Austin Texas" who has made inquiry regarding this well. I understand it is capped. yours
Jim

Attention: Cari Furse

Subject: Well's # R & E Barker #1, R & E Barker #2, Marshing #1
and Courtney #1.

Dear Ms. Furse:

Carmack Drilling Co. is not involved with these wells and we do not know what action has been taken. We have not authorized any one to drill these wells on our behalf, and we have no intention to drill them ourselves.

The owner or operator of the leases involved is:

Utah Penn Oil Company
P. O. Box 26840
Austin, Texas 78755

If you have any further questions they may be able to help you.

Sincerely,

CARMACK DRILLING CO.
